

Ace[®]

ACE™ ULTRA-KLEAN DESCALER KIT (UKK)

NEW!

ACE™ ULTRA-KLEAN DESCALER KIT (UKK) consists of...

Everything needed for Cleaning Tankless Water heaters that have 3/4 inch garden hose service connections, including a mixing container, quart of Concentrated Descaler (UKD) solution, circulation pump and necessary hoses.

The Concentrated Descaler solution is available in quart container that is supplied in the Kit. **One quart makes 1½ gallons of ready-to-use descaler.**

BENEFITS

- ▶ Safely Restores Equipment to Full Efficiency
- ▶ Eliminating scale deposits will significantly improve heat transfer, boost efficiency and reduce energy costs. A layer of scale 0.03 inch thick can increase energy costs by up to 30%.

TANKLESS WATER HEATER CLEANER

An easy to use system designed to quickly dissolve water scale, lime, rust, and other water formed deposits that can build up in tankless water heaters, heat exchangers, heaters, and any other appliances where flow passages must be kept free of mineral deposits. Maintaining heating passages free of mineral deposits will significantly improve efficiency, conserve energy, reduce energy costs and extend the life of equipment.

Kit includes everything shown here
